

## CC-Ltd is a PEPPOL Access Point provider

### Providing solutions for NHS Trusts, Private Healthcare and their Suppliers

The NHS has mandated the use of PEPPOL as a message format and message transmission protocol. The format is XML and the protocol is AS2. Both have been in common use for a number of years. AS2 uses the Internet and should, in theory, be free to use.

## CC-Ltd is not just a PEPPOL Access Point provider

We provide **Order to Cash** EDI/B2B Services on a 'Pay as You Go' basis to any type of organisation. Whether your company is supplying the NHS, Private Healthcare, Retail, Manufacturing, Automotive etc.... our Services will allow you to trade electronically with your trading partners. Regardless of which CC-Ltd Service you choose there is no need to purchase additional hardware or software everything is provided by us.

**Contact us today for free advice on what your next step should be and to discuss the consequences of not registering with a PEPPOL access point before the end of September.**

### Our Plans:

Our services are truly 'pay as you go'. Monthly usage charges are based on actual usage and are invoiced monthly in arrears. There is no such thing as a 'free message' it will have been accounted for, and charged somewhere. Why pay, up front, for transactions you may never use? Our monthly usage charges are based on volume (per Mbyte) and this equates to a starting price of approx. £0.06/transaction reducing to approx. £0.03/transaction for high volume users.

<p><b>WebForms</b> Web browser required</p> <p><b>£500.00/Year</b></p> <p>Simple, fully managed, web portal 24 x 7 email and telephone support Monthly message translation and administration fee.</p> <p>Ideal for any company with small order volumes, no ERP or finance systems or whose ERP/finance systems can't integrate.</p>	<p><b>Integration</b> Integrate with your ERP/Finance app</p> <p><b>Starts at £650.00/Year</b></p> <p>Secure FTPS connection provided for exchanging documents 24 x 7 email and telephone support Full integration with your ERP/Finance system Monthly message translation and administration fee.</p>	<p><b>Integration Plus</b> For any organisation whose ERP/Finance App can exchange PEPPOL XML messages</p> <p><b>Starts at £650.00/Year</b></p> <p>Secure FTPS connection provided for exchanging documents 24 x 7 email and telephone support Full integration with your ERP/Finance system exchanging PEPPOL format messages No message translation charge, flat rate for message administration.</p>
